The SPA Journey

eponé
is our TRIBUTE to the WORLD
we love. Composed of all its natural
DIVERSITY. In HARMONY
with its elemental HEALING
power. For moments of
sumptuous WELL-BEING.

At eponé we are spa enthusiasts on a never-ending journey, dedicated to fusing nature's finest oils, extracts and essences for natural beauty and inner balance. Inspired by traditional curative knowledge and well-being rituals from around the world, our products and treatments create a holistic spa experience that allows body and mind to blossom anew every day.

Inspired by WATER

In the vast desert of Mauritania a small flower blooms every morning in the midst of dry sand. Its blossom is so delicate that it can no longer withstand the midday sun. And yet it unfolds its full beauty anew every day, enlivened only by a few droplets of morning dew. As if in gratitude for the precious wet. Just as we do when we open ourselves to the healing power of water. Our purpose is to enrich every day with this holistic experience. With unique expertise, unrivaled pleasant applications and a skin care series that proudly bears the name of a delicate flower: eponé.

Made from NATURE

Our natural ingredients are selected with passion and deep knowledge, blended in harmonizing balance for the best possible combinations. No distance was too far to bring together all the elements forming our skin care range.

Composed by Spa EXPERTS

eponé is the embodiment of profound expertise deriving from decades of international spa experience. It combines unique expertise of potent ingredients and precious rituals – lovingly composed to holistic Spa-moments.

SPA Philosophy

Our spa concept is based on the same holistic philosophy as each of our products: We understand physical and mental well-being as one and every spa visit as a wonderful, immersive experience. From intuitively selected scents to individually coordinated details, we create an incomparably diverse sensory world that fully revolves around personal wishes at every moment.

Three & ONE

The beauty of nature is revealed in its glorious diversity. Each of our products combines three exquisite main ingredients deriving from fascinating cultures from all over the world. Our refinement is an extra dose of potent magic in every formulation. Each of our formulations bring worlds together in a unique way: continents, landscapes and natural elements.

PRODUCT Range

Our skin-care range is formulated using a bespoke blend of skin-loving, active ingredients deriving from nature's precious gifts. Versatile in use, unique in effect our products cater to a variety of skin needs and moods. Oil Elixirs – the heart of our skincare range, are complemented by Creams & Concentrates, Bath & Shower, Hair Care and Hand Care products followed by Spa at Home specials. Transparent glass bottles emphasize the characteristic hues of the oils and essences, turning it into a visual highlight in every bathroom. For full immersion into luxurious self-care rituals every day.

eponé is a feeling. An attitude to life. Each product enfolds knowledge and aspiration, fused with a generous dose of escapism. A journey through the world and to yourself.
